Event Photography - Parent or Guardian's consent

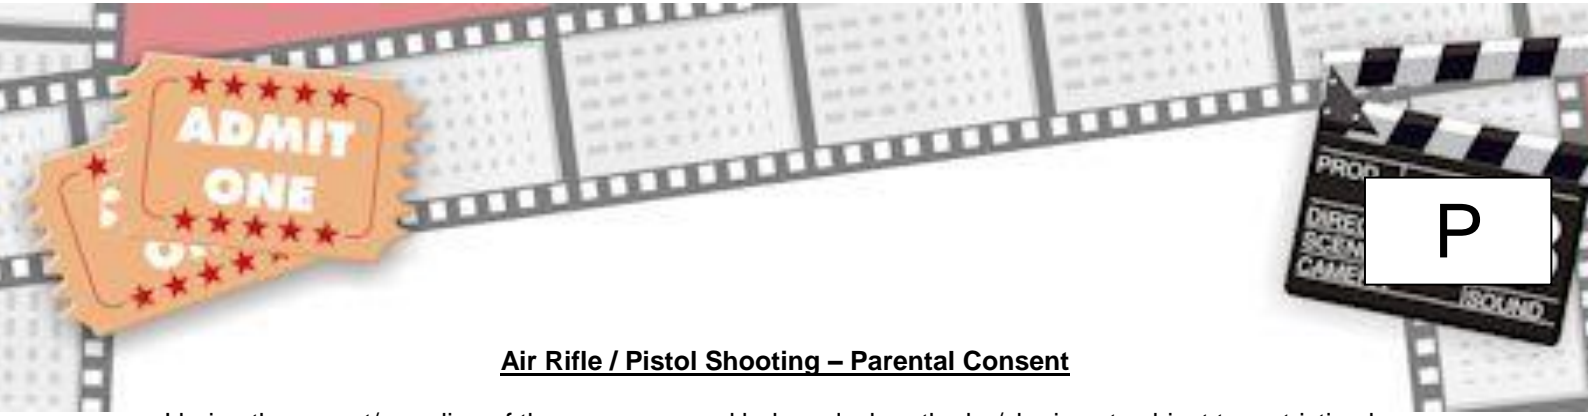

The event recognises the right of a parent or guardian to refuse to allow to be published any photograph taken of their child. That is why the event team holds a register of the names of all young people who should not be included in any published photograph. It is equally important that the young person's Leader should be aware. The event team appoints an official photographer(s) for every event and only official photographs are to be used by the press or on the web site.

Whilst every effort will be taken to avoid publication of unofficial photographs the event team is not able to prevent unofficial photographs from being taken or distributed by other people without their knowledge.

I am happy for photographs of my child to be taken during the event and used in national and local Scouting publicity, publications or websites:

Yes No
